**Sandra Hyett**

I began wrapping crystals about 8 years ago when I moved from Texas to Arkansas. My brother sells crystals, so I had easy access to them. From there, I started making rosaries and prayer beads. Recently, I have gotten interested in wire weaving and now make pendants, rings and ear cuffs. I have been a physical therapist for 49 years I love to learn, and in 2009 received my Doctor of Physical Therapy, the same year I received Social Security. Making jewelry is a wonderful diversion from health care.
