David Kimball

I'm just a guy with a love for photography. I started in the 60's with black and white film, an inexpensive camera and a make shift dark room. I loved back and white and followed this path for about 10 years or so. Then life happened, and I needed to put this hobby on the back shelf.

Skipping forward to present times I have re-discovered my love with photography, for about the past five years. I have been able to combine my computer skills with photography.
